No. 18

MASS MEETING AT HIGH UNION SCHOOL ATTRACTS EARNEST WORKERS

Reports of Trustees Read and Discussions Follow which Develop into Enthusiasm as the Full Idea of the Proposed Plans are Understood

PROF. MOYSE GIVES OUTLINE OF WORK

Norman Marsh with Views on Scene Shows What can be and is Being Done by Other School Districts in this Section

The widely advertising mass meeting to be held at the Union High School Tuesday evening brought out about 75 people, who were interested in the future of their children and the proposed bond issue. This is a matter of vital importance to the taxpayers of this school district and the purpose of these meetings are to give to the people the direct facts of the position that this school district is now up against. The accommodations of the school at this time are inadequate to properly house the students and give them the proper training that is expected. At the meeting Prof. Moyse gave a general outline of the work approved by the trustees, answered questions on the condition of the present facilities and Mr. N. S. Marsh showed on the screen with an interesting talk what the surrounding towns are doing and have done in the way of school buildings. The proposed move is as follows: Options have been secured for some 180 feet on Maryland between Fifth and Sixth and the city will be asked to close Maryland. This in all will make some 15 acres of ground for high school purposes. At this time this amount of ground will not be necessary, but when the future is considered the amount of land is still small in comparison to other cities of this size, and the way the district is growing this will be used up in a very few years. At this time but two buildings will be built. It has been decided to build one building a companion to the present structure, to house the domestic science department and a second building where the work of the boys can be carried on, such as the manual training, machine shops and draughting department. This will give ample room in the main building for class and study rooms that at the present time are overcrowded and the fall term means several more classes to find room for. The property now under option can be purchased for about \$28,500 and salvage from the build-

TRUSTEE'S MEETING

The trustees met in regular session Thursday evening, all being present with the exception of Dr. Conrad. Ordinance No. 57 closing Park avenue to heavy traffic was read the third time, passed and ordered printed. The superintendent of streets was instructed to have signs printed notifying the public of this ordinance the signs to be posted in conspicuous places in the vicinity of this street.

The ordinance establishing the grade of Christopher street was passed and ordered printed.

The city attorney stated that he had not had time to provide the new franchise covering the water rates and that the water company had notified the city clerk that it would be impossible for the company to have representatives present and for these reasons the water question was passed until next meeting.

Complaint having come to the Trustees that the citizens were being charged an exorbitant rate on ice and that selling agencies for ice companies were being kept out of the city because of the license tax, the city attorney was instructed to prepare an amendment to the present license tax to remedy this monopoly on a very necessary essential.

City marshal complained that he had chased "joy riders" so much that the back tire on his motorcycle had become badly worn and that he was in need of a new one. He was authorized to purchase one at a cost not to exceed \$14.

The following demands were allowed and warrants for same ordered drawn: D. Griswold \$75.00 John T. Peters 75.00 H. A. Jennings 2.75 J. A. Frankel 20.00 Seiner Co. 44.50 S. E. Brown 22.50 Pacific L. & P. Co. 104.00 C. W. Resden 13.75 Ruth M. Ford 8.60

The ordinance declaring Cypress street a boulevard and closing it to heavy traffic was read the second time. As the people living on Cypress are anxious for this measure to become effective on account of the damage being done their street every effort will be made to rush the necessary formalities to declare the street closed to heavy traffic.

SUMMER GAMES.

Saturday evening Mr. and Mrs. E. D. Reynolds entertained a number of friends from Glendale, Los Angeles, Pasadena, and Tropic, at their home on Park avenue, to celebrate the opening of a new croquet ground which they had made to order, for the pleasure of the many young people who visit them.

The grounds were made resplendent with many Japanese lanterns, and the light of the moon, and the young people enjoyed, for an hour or two, the athletic out-door exercise, while the older guests indulged in card games in the house.

The rooms were beautifully garlanded with flowers and vines, intertwined with the national colors, in honor of "Flag Day." Over the archway of the parlor hung a soldier's sword and belt, surmounted by a draped flag, while another flag, which was brought from the Philippines by Myron Lowe, Mrs. Reynolds's brother, waved over the dining table, from the chandelier above.

At 10 o'clock p. m. the hostess, assisted by the Misses Josephine and Ruth Moore, served a delicious repast of pineapple sherbet, cake and fruit, after which an hour was passed in music and songs presented by a number of young ladies and gentlemen, with Miss Moore, accompanist.

The evening was one of delight to all who had the pleasure of being present. The invited guests were: Mr. and Mrs. G. A. Reid, Harry Reid, Jack Reid, S. J. Reid, Mr. and Mrs. W. J. Pierce and Mrs. W. J. Pierce and Roy Pierce of Glendale; Messrs. Horace Miller, Charles Miller and Rod Miller of Pasadena; Mrs. Clara Moore, Mr. and Mrs. Charles Moore and Misses Josephine and Ruth Moore of Los Angeles; Mr. and Mrs. J. L. Fishback, Mr. and Mrs. S. A. Pollock, Mrs. Mary Nisbet, Mrs. Myra C. K. Shuey, Mr. Myron Lowe, Mr. C. E. Shuey, Miss Ruth Harrison, Miss Muriel Harrison, Miss Marjorie Imler, Mr. Eugene Imler, and Allen Pollock of Tropic.

NOT ON THE PROGRAM

An automobile belonging to the Keystone Moving Picture Co., caught fire Wednesday afternoon. The machine was being used by two men in a scene, supposed to represent cowboys escaping in an automobile. There were two men in the machine. One sat in the rear of the cab and as they would pass through a town he would light and throw out a bomb. A bomb was thrown just as they passed the Bank of Tropic, on San Fernando. From this sparks fell and exploded bombs in the machine. From these, Ford Sterling, the bomb thrower, was quite severely burned. Dr. Duncan dressed the injuries. Bystanders put out the fire before much damage was done to the automobile.

BIG GAIN IN MEMBERS

The Christian Scientists At Annual Meeting Make Reports to Assembled Thousands

Frederick Dixon, C. S. B. of London, was announced as president of The First Church of Christ, Scientist, The Mother Church, at the annual meeting at that church held in the church extension yesterday.

Several thousand members attended, including many members from foreign countries. Bliss Knapp, C. S. B., the retiring president, presided at the first part of the services which included hymns, readings from the Bible and "Science and Health," and prayer.

Mr. Knapp then announced the new officers and introduced Mr. Dixon, who took the chair. The other officers are John V. Dittmore, C. S. B., of Brookline, clerk, and Adam H. Dickey, C. S. B., of Brookline, treasurer.

The treasurer's report showed the finances of the church to be in a flourishing condition. The clerk's report stated that the gain in membership in the past year has been greater than in any year previous, and that 102 new churches have been organized, including five in England, and others in Germany, Switzerland, Australia, New Zealand and Porto Rico. In addition to these many unorganized gatherings of Christian Scientists were mentioned.

A call for reports from the field brought testimony from all parts of the world as to the growth and excellent condition of the Christian Science movement. Thanks were given from Ohio for the generous help The Mother Church and its branches had offered; New York city reported the establishment of new Christian Science reading rooms and mention was made of the missionary work done by Christian Scientists in prisons throughout the country.

Mr. Knapp, who is a member of the board of lectureship, told of his recent lecture tour, on which he circumnavigated the globe. Everywhere he stopped, he said, he was met by numbers of people, and the halls engaged for the lectures were in most cases overcrowded, especially in Australia.

Prof. Herman S. Hering, C. S. B., told of his lecture tour through Germany and Switzerland, on which, speaking in German on Christian Science, he was greeted everywhere by large audiences. Col. William E. Fell of Leeds, Eng., and others described the progress and growth of Christian Science in the British Isles.

The summary of the report of the board of lectureship showed that in the past year lectures given by this board had been attended by more than 800,000 persons, an increase of 150,000 over the previous year.

A report from Sweden reviewed the recent victory gained by the Christian Scientists of that country in securing official recognition of the church. This was granted by the King, to whom appeal was made after several unsuccessful attempts to gain legal recognition from the ministers of the state church.

The meeting concluded with the doxology.

The past week has been a busy one for Recorder Melrose. Among the more prominent cases to come before him are: A notice of appeal in the civil case of J. J. Reynolds vs. J. O. Green; warrant issued for the arrest of F. E. McClemmy for embezzlement, complainant being Mrs. Celia Gabaig, McClemmy misrepresenting things in order that Mrs. Gabaig go security on a note. The money was secured and McClemmy disappeared. Adelbert E. Williams charges Mathias J. Smith with battery committed on his person at Eagle Rock Park several days ago. This case will be heard before a jury Thursday. In the battery case of People vs. Manger et al, before the grand jury of Los Angeles County, developed a change of venue. Lawyers for the defense argued that prejudice would be shown the prosecution, developing from newspaper reports, and asked that the case be tried in Burbank Township. This was granted and came up for trial before Judge Melrose last Tuesday, at which time a continuance was granted until the following Tuesday. In the matter of Williams vs. Smith the jury failed to return a verdict and a new trial was ordered.

CIVIC CLUB MEETS.

The Civic club met Tuesday evening, Chairman Dan Johnson presiding and Earl Clemens at the secretary's desk. The members were late in assembling. The general opinion being that all had been experiencing rather strenuous times from different causes.

Several committees are at work investigating the different phases of the water question. These committees had held a number of meetings and had given much of their time to the work in hand, but were not ready to submit their final reports.

The street working committee on account of the absence of Mr. G. N. Adams asked for further time.

A resolution was passed instructing the secretary of the club to notify the committee to use as much speed as possible with good work in forwarding the matters in their hands and not to allow the spirit of "the good old summer days" to get too strong a hold on them. Owing to the removal of Mr. Coughland from the city, in accordance with the provisions of the by-laws his office as director was declared vacant and Charles H. Phillips was elected to fill the unexpired term.

An invitation to affiliate the Federal Improvement Association was received from the secretary-treasurer, Mr. H. M. Chapman.

The statement was also made that Mr. Chapman would make the club a visit if desired and the steering committee was instructed to invite Mr. Chapman to visit the club and deliver an address at the next meeting.

WELL PLEASED.

One of the most pleasing entertainments given in Tropic recently was the entertainment given Friday evening by the Tryome Club.

The Tryome Club is a recent organization of young men, organized for the purpose of giving its members wholesome fun, and this entertainment was their initial effort and proved to be a success from every standpoint, and would have reflected credit on a much older organization.

The management of the Star Theatre had secured some exceptionally good pictures for the evening, and after these were shown, Mr. Ferdinand Rigali gave a couple of violin selections that were rendered, not only with technique, but true artistic skill.

Miss Helen Beatrice Cooper gave a couple of songs, and Miss Cooper demonstrated again that she is one of California's real song birds.

Mr. A. J. Van Wie as a monologist was good. His Dutch dialect recitation was well rendered and would have been a credit to many professionals.

Miss Glenora Zirk, one of the best accompanists in California, presided at the piano, and proved herself possessed of those peculiar musical qualities of a marked degree so essential to a good accompanist.

Mr. Robert Oliver, president of the club, deserves much credit for the efforts he made to make the evening a success.

ST. MARK'S EPISCOPAL CHURCH.

Services for Sunday next at St. Mark's church, corner of Louise and Fifth streets, Glendale, are as follows: Celebration of the Holy Communion at 7:30; Sunday School in the Sunday School room promptly at 9:30; morning prayer and sermon, music by vested choir at 11 o'clock.

Notice.—Mr. H. H. Tarris, superintendent of the Sunday School, asks the mothers of all children—large or small—to make a special effort to have the little ones attend Sunday School services.

Preaches in Long Beach.

Dr. T. S. Mills preached in Long Beach last Sunday evening at St. Luke's Episcopal church, which is in charge of the Rev. Arnold G. H. Bode.

Thimble Tea.

The young ladies of St. Mark's church have issued invitations for a "Thimble Tea" to be given in the Guild Hall on Friday afternoon, June 20th.

Miss Runkle of Urbano, Ohio, who has been a guest at the home of Mrs. Wright, 235 South Louise street, Glendale, for several months, will return to her home this week. Miss Runkle has made many friends during her stay and on last Saturday evening they were her guests. Refreshments from the Society Shop.

THE TROPICO BOYS REDEEM THEMSELVES AND TAKE SUNDAY'S GAME

But Make Errors That Would Have Been Fatal If Their Opponents Had Been Real Ball Players. The Tropic Boys Need Team Work Play.

WILL PUT IN SHOWER BATH AT GROUNDS

And Fix Thigs up So Good Teams Will Come. Many ladies were Present and Proved Faithful Fans.

The second game by the Tropic Baseball Club was somewhat better than the first. As good as could be expected. The line-up was different and three new players were introduced, Sam Rich, Rex Rhoades and Daniels. All three were good, and considering that Sunday was the first time Rhoades and Rich had played for sometime, they did real good. Rhoades played third all through the game and there are some good hopes of him being able to hold it down. Rich was put in in the fourth inning, when Ukoteer forgot which leg he was running on, and in the confusion he twisted the right leg so that he was laid up for the remainder of the game.

Rich took Spears place on first, and Spear caught the remainder of the game. It's a good thing he did, for we have been wondering what we were going to do with him. In the first game he could not hold third, and then he was put on first. He played first fairly good, but say, he sho' am some catcher! Sisney pitched a good game, but made one bad error. Gabaig started the errors in the first inning, and it seemed to be contagious, for everybody got to "do in it." However Gabaig took the honors, making six nice errors. And some of them weren't little ones either (brace up, Al!). The batting was better than it was in the first game; there being two two-base hits made.

The score:
Tropic, A B R O
Gabaig 5 1 4
Daniels 5 2 2
Markwith 4 2 1
Sisney 4 2 1
Spear 4 0 4
Rhoades 4 0 4
Faulkner 4 1 2
Violet 4 2 2
Ukoteer 1 0 1
Rich 3 0 3
Barker Bros. A B R O
Crawford 5 0 4
Loper 5 0 5
Ackerman 5 1 3
Hamrick 5 2 2
Glazier 5 0 5
Jackson 5 1 4
Shoshan 4 3 0
Perrin 4 0 2
Palm 4 0 2

The score book was not completely made out, and a few minor things, such as "errors" were not all accounted for. However, we give you the following, which is the best we can do for you this time.

Struck out—By Palm, Sisney 10, bases on balls—Or Palm, unaccounted for, Sisney 2. Two-base hits—Faulkner and Ackerman. Sacrifice hits—Ackerman, Jackson, Rich, Faulkner, Spear, Rhoades. Stolen bases—Loper, Ackerman, Jackson, Sheehan, Markwith, Sisney, Faulkner, Violet, Rich. Errors unaccounted for. Hit by pitched ball—

Faulkner by Palm, Innings pitched—By Palm, 9, runs 10, hits 14, by Sisney 9, runs 7, hits 3. Umpires—Van Meter and Monot.

RAPID ADVANCE IN MOTOR-DRIVEN PUMPING ENGINES.

Gasoline Already Displacing Steam in Recently Constructed Apparatus.

It is no news to an ordinary observer that motor apparatus is fast being introduced into municipal fire departments as a propelling power for getting fire engines from their houses to the scene of a fire, but few people realize the rapid advance that has been made in the adaptation of the same power to the pumps with which ordinary fire apparatus is equipped.

The past year has seen some notable strides made in the development of gasoline-propelled and operated fire pumps to supplant the old-fashioned but venerable steam fire engine.

The fireman's life is not what it was a few years ago, as with motor-driven apparatus he has no sleepless nights as heretofore with horses who would kick the stalls and annoy all the citizens in their adjacent homes.

To sum the whole thing up from every standpoint, it is now as it never used to be—that an engine house can be erected in the most aristocratic neighborhood, and there are no objections to it, as it is sanitary, quiet, and for the taxpayer it is more economical than horse-drawn, as when it is not in operation there is no maintenance cost and no depreciation, as, on the other hand, horse-drawn apparatus has to be groomed and fed, and repairs of harness, etc., which is no small item at the end of twelve months.

The Knox Automobile Company of Springfield are pioneers in the construction of fire apparatus, and have just recently sold to our sister city, Glendale, a combination hose and chemical apparatus of the latest design and up-to-the-minute equipment.

The City of Bakersfield has recently purchased a Knox pumping engine for their fire department, after thoroughly inspecting other makes of pumps, in respect to quality and power. In their judgment there is no medium pump that equals the Knox piston pump for simplicity and durability, and as this type has been used in pumps for the past years it has clearly proven beyond a reasonable doubt that piston pumps deliver water easier and with less slippage than other makes of pumps.

A SENSIBLE MAN.

A Los Angeles business man writes: "I wish to acknowledge the receipt of the Tropico Sentinel of the dates June 4th and 11th and I also wish to state that it is a 'real newspaper,' bright, clean and a booster for Tropico, its Homes, Business firms and people."

BE A BOOSTER, NOT A KNOCKER.

When I was a school boy the other pupils had no use for the boy who was a growler, the one who said mean things about absent ones, and he was looked on in the same way as a tattler, he was despised as a nuisance, and the same in the preparatory schools and college later, but the boy or young man who was optimistic, and continually looking for the good was the favorite, the one who had a good word for others in general, and knew how to say it.

So it is in later life, in business, in all that pertains to human happiness and progress, the man or woman who looks for good will find it, but if they are so pessimistic that nothing looks good to them their horizontal view is so distorted that nothing appears straight to them, and they soon begin to believe that there is no good in life, no freidship, no value, no truth, and they become misanthropes.

Last week the Sentinel called attention to the weed annoyance on vacant lots and it is with pleasure that the announcement is made that a number of lot owners have cut the weeds overhanging the sidewalks. Will not others do likewise?

A sweeping victory has been gained by the city of Glendale as against the Consolidated Water Company in the contest over water connections. The decision by the Railway Commission was handed down the first of this week, and in that decision the Railway Commission held that water companies must make connections to the property line and install meters absolutely free of cost to the consumer. Heretofore, the companies in the San Fernando Valley have made exorbitant charges for this connection, and suit was brought by the city of Glendale against the water company. City Attorney Evans has been in charge of the suit, and he is deserving of much commendation for the manner in which he has conducted the case. In winning the suit he has conferred a favor upon many communities throughout the entire state. In Tropico the water company has made a charge of \$15.00 for a water connection, and when hundreds of these connections are being made each year, and the actual cost of making such connection is only from six to seven dollars, it doesn't take much of a mathematician to see the big profits of the water company from this source, and this is a profit that is unjust from every standpoint.

It never pays to be penny wise and pound foolish, and certainly not in school matters. The Union High School is in need of more facilities, more ground and better equipment. The Trustees are high-minded, honorable and trustworthy, and withal conceded to be good level headed business men. They have given the subject of school betterment much study—have given unstintingly of their time and energy in working out a plan. This plan was submitted at a mass meeting called to consider the matter. This meeting appointed a committee of 30, all of whom were representative men and women, to thoroughly investigate the matter. After spending two weeks in this work the committee unanimously endorsed the plan as outlined by the Trustees. The Sentinel is in favor of building up a Union High School that will be a credit to the whole community. It is not feasible for Tropico, Glendale and Eagle Rock to have separate High School systems. To undertake it would inevitably result in lowering the efficiency. Let us lay aside all petty animosities, all jealousies and all self-interests and each and every one of us work for the upbuilding of a practical school system which shall be second to none in the world. Why shouldn't we have the best. Haven't we the best class of people in the world? Haven't we the talent and the opportunity? Here's to a steady, united pull for good schools.

The Sentinel makes the statement, and makes it unreservedly, that Tropico and Glendale have more big, wholesouled, good citizens to their population than any other community in the world. The people are enterprising and progressive without being lost to those higher ideals of honesty, brotherliness and neighborliness that makes life worth living. It's good to dwell among such people.

of a peculiar type, while their friends and acquaintance have to bear with them as easily as they can, that is what friends they can claim, for they are few and far between for those pessimists.

If you see anything wrong in a store where you may deal at, if the goods are not what you expect to get, if the salesman is a laggard, do not go outside and tell everyone you meet about it, and try to scandalize the store and owner, but it surely would be better and pleasanter for all concerned to go direct to the owner and explain only to him, for he assured he will do what he can to remedy matters, for it is to his interest to do so.

If a neighbor insists on saying mean things about another, who wants to listen if they have any self respect and if the listener knows the statements are wrong does not he want to correct the wrong delusion? He does if he has a spark of manhood and truth in him.

There will be of course men and women who insist on saying mean things, giving false accounts, telling absolute untruths, and scandalizing things about others, telling falsehoods and abusing the State, the newspapers or magazines, or prominent persons, many times stating things abusive of which they have no knowledge, or idea of, have never seen what they talk about, and these are the pessimists, the knockers, the gronches, who can see nothing good in their distorted vision, but are expecting good to come to them by sending out bad seed, and often for a slight and imaginary pecuniary influence, so when things do not come their way they feel aggrieved, forgetting that their false view obscures all good, and they do not note the fact that no one of good sense wants to listen, they do not think the world has no use for a pessimistic and ulterior view of things, and such people cannot be popular as long as they have that peculiar frame of mind, so, be a booster, not a knocker, for no one, not even your dearest friends, have any use for that type of people.

Look for the good that is in and around you, and you will soon find it.

WE ALL HAVE A RIGHT TO AN OPINION.

The financial difficulties of the 'Frisco railway has called attention to railroad affairs in a forcible manner. In many ways the 'Frisco was one of the most liberal railroads in the country. The chairman of the executive committee which had the finances of the road in hand is a Texas lawyer that first came into prominence as the receiver of the old San Antonio and Arkansas railroad back in the '90's. Mr. B. F. Yoakum has ever been an active and progressive railroad man, and to a marked degree has recognized the right of the public and in Texas has probably done more to allay the irritation between railroads and the public than any man in the country.

Of course there are many opinions advanced as to why the 'Frisco got into financial difficulties but probably if one was to get back to the real trouble it would be found to lie in the system adopted by railroads during the constructive period of resorting to "high financial" methods.

But the daily and weekly papers which specialize in financial affairs do not seem for the most part to regard the 'Frisco failure as the cause of the subsequent slump in securities, nor do they think it a portent of coming disaster. In France, where a 'Frisco bond issue was successfully floated in April, the news of the receivership has incensed security-holders, and several journals have made the incident a text for caustic remarks about American business morals. In New York, one writer connected with The Journal of Commerce does see in the 'Frisco bankruptcy additional evidence "of the importance of two underlying factors in the market," which, in his opinion, are driving "the weaker class" of railroads to despair. First of these, he says, "is the scarcity of funds for investment; second, the inability of railroads to make sufficient money to adequately protect their credit unless they are permitted to charge profitable rates for the transportation of merchandise." That this great system, with 7,520 miles of road, extending from Kansas City, St. Louis, and Chicago, through Missouri, Arkansas, Oklahoma, Illinois, Kansas, Tennessee, Mississippi, Alabama, and Texas, should not be able to secure funds to meet maturing notes amounting to \$2,250,000 "is remarkable," we read further in The Journal of Commerce; and "that its bankers should express surprise is even more remarkable, for they certainly must have been importuned to furnish this small sum."

If from this receivership comes a more intelligent and healthful condition in railroading the country will have much to be thankful for.

That American railroads are acknowledged the best railroads in the world is known to all who make a pretense of keeping up with general affairs, but that they also have been run in a reckless and extravagant manner is also known to every business man in the country. Most all the railroads were built largely upon watered stock, and these roads have been burdened with extravagant and high salaries positions ranging from one hundred thousand dollar a year president, with his palatial special train, down to the ten thousand dollar a year superintendent. Salaries paid such officials are out of proportion to the services rendered by them, and, worst of all, and unfortunately, many "small men" have secured these positions and they have assumed an attitude

of arbitrary disregard of the rights of the public, and this created the wave of railroad antagonism that has swept over the country the past ten or fifteen years.

It has been charged, time and again, by competent authority, that the railroads are run on the most extravagant system of any other big business in the country. An effort has been made by railroad men to overcome the results of this extravagance and inefficient management by increasing the rates in the face of an aroused and antagonistic public. It cannot be denied that in many instances railroads have been unjustly prosecuted, and have been forced to submit to unfair legislation, but there is no use in kicking against such legislation until the railroads themselves commence a clean-up process in their own house.

THE JOYS OF JUNE.

There are signs abroad of summer lassitude. The soft June air also carries stories of school closings, wedding bells, vacation anticipation. The voice of the new fledged graduate is heard in the land. His immatured wisdom mingles with his joyous laughter, announcing the completion of a collegiate course.

This is the month when he discusses mighty topics and in positive terms points the way to the redemption of the universe.

If his essay be a little feeble, there is never a question as to the power of the title, never a question as to the sincerity and zeal with which they show the grim old world how much it needs them to set things right. Their point of view is admirable and has in it the glorious hope and purpose of youth. They will discuss "The Philosophy of Civilization" with unflinching bravery. They will declaim on "The Loneliness of Genius" with a faintly veiled suggestion of the sequestered life he has been leading. They will explain fully "The Japanese position and Purpose" and will show "The Effects the Balkan Trouble Will Have on Europe."

Ah! It is splendid the serenity

and confidence with which the young graduate settles the affairs of nations, or delving into the past, indulges in that never-failing collegiate lung tester, "The Rise and Fall of the Roman Empire."

But why should we smile, scoff or find fault with the June commencement displays, because of their scholastic hue, their ambitious spirit, or their want of practical understanding. Our Boys and Girls are not yet of the world. They have been living for four years in an atmosphere of classical and scientific training with our beloved and esteemed principal, George U. Moyse, who has always been so kind and gentle, ever quick to soothe and cheer; such a loving, faithful guardian and a friend so true and loyal. This coming commencement is his eleventh. His splendid corps of teachers are:

Geo. U. Moyse, mathematics; Harry L. Howe, American history and geometry; Helen M. Darsie, German and cooking; M. L. Darsie, science and athletics; Bessie L. Field, Spanish and history; Ethel Hume Flood, Latin; Clarence L. Gates, commercial subjects; Dora L. Gibson, music; Jane Alice Hawk, physiology and girls' gymnasium; Vera E. Holway, sewing and cooking; Margaret Knepper, English; Henry Nelson Moore, manual training; M. Irene Muller, drawing; Dorothy B. Poppy, English and Latin; W. Darwin Root, English and debating; Alta D. Stone, mathematics and chemistry; G. F. Taylor, science; Richardson D. White, mathematics.

They have been so kind and gentle, Ever quick to soothe and cheer, Such loving, faithful guardians, And friends so true and dear.

SOME ADVICE ABOUT HUSBANDS.

Owing to the number of weddings that have taken place in the valley during the last month and the further number that have been announced, the following advice taken from an exchange may not be out of place nor out of season:

A good many husbands are spoiled by mismanagement. Some women go about it as if their husbands were bladders and blow them up, then keep them constantly in hot water. Others let them freeze by their carelessness and indifference, some keep them in a stew by irritating ways and words; others roast them. Some keep them in a pickle all their lives. It cannot be supposed that

any husband will be tender and good managed in this way, but they are really delicious when properly treated.

In selecting your husband you should not be guided by the silvery appearance, as in buying a backerel, nor by the golden tint, as if you wanted a salmon; be sure to select him yourself, as tastes differ. Do not go to market for him, as the best one is brought to your door; it is far better to have none, unless you will patiently learn how to cook him. A preserving kettle of the finest porcelain is the best, but if you have nothing but an earthen pipkin it will do with care. See that the linen in which you wrap him is nicely washed and mended, with the required number of buttons with strings tightly sewed on. Tie him in the kettle with a strong silk cord called comfort, as the one called duty is apt to become weak; make a clear, steady fire out of love, neatness and cheerfulness, set him as near this as seems to agree with him. If he sputters and fizzes do not be anxious; some husbands do this until they are quite done. Add a little sugar in the form which confectioners call kisses, but no vinegar or pepper on any account. A little spice improves him, but it must be used with judgment. Do not stick any sharp instruments into him to see if he is becoming tender.

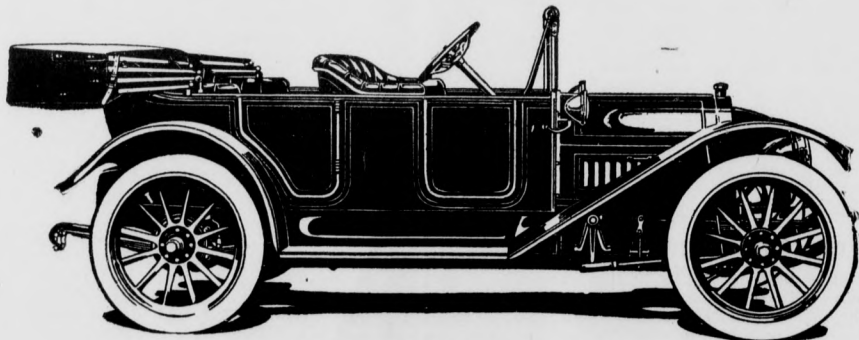

Wednesday afternoon last, June 11, a pleasant surprise party was given Mrs. H. Coles of Gardena avenue at the home of Mrs. Sawtelle. Those participating were Mrs. Lawton, Mrs. Fryer, Mrs. Crew, Mrs. Booth, Mrs. Mead, Mrs. Becker, Mrs. Stebbens, Mrs. McBride, Mrs. Emke, Mrs. Sawtelle and Mrs. LoFountain. A very enjoyable afternoon was spent and music, ice cream and cake and games. Mrs. Stebbens won first prize and Mrs. Becker the second. Other similar parties will be held from time to time as the town grows up.

PRAYER.

To be ever conscious of my unity with God, to listen for His voice and to hear no other call.
To separate all error from my thought of man, to see him only as my Father's image.
To show him reverence and to share with him my holiest treasures.
To keep my mental home a sacred place—golden with gratitude, redolent with love, white with purity, cleansed from the flesh.
To send no thought into the world that will not bless, cheer, purify or heal.
To have no aim but to make earth a fairer, holier, happier place and to rise each day into a higher sense of life and love.

Printype Letter

What's all this stir about Printype? The best answer is a Printype Letter—yours on request.

Comparison between Printype and the usual "outline" typewriter type faces will tell it all at a glance.

If beautiful book printing appeals to you—

If you like the type of THE SATURDAY EVENING POST—you will be won by Printype.

For PRINTYPE is regular book type adapted to the typewriter. A bold, clear type that gives distinction to business correspondence.

Printype OLIVER Typewriter

The Standard Visible Writer

PRINTYPE IS OWNED AND CONTROLLED EXCLUSIVELY BY THE OLIVER TYPEWRITER COMPANY

The artistic quality and attention-value of Printype are important considerations. But the supreme advantage is readability. Printype is restful to the eyes.

The shaded letters and numerals conform to the Law of Optics.

It cost us thousands of dollars to produce Printype. It's yours—without extra charge—on the No. 5 Oliver Typewriter. Ask for a Printype Letter. If interested in the 17-Cents-a-Pay Purchase Plan, write for details.

HAPPENINGS

Mr. and Mrs. Chas. P. Findley of El Bonito avenue spent the week-end at San Diego.

Mr. and Mrs. W. H. Ludden of El Bonito avenue attended the exercises held at El Bonito college, last week.

Mrs. Lewis Earl of Washington, D. C., and Mrs. Harding of Iowa, were the guests Friday of Mrs. Herbert Sharp of Eulalia street.

Mr. and Mrs. J. S. Dehnell of Pomona, and Mrs. F. N. Conwell of Palms were the guests Sunday of Mrs. Fannie Southland of El Bonito avenue.

The Philatheas and Baracas, twenty-five strong, engaged Bill Wibelitz's Joy Wagon and took a ride to B Rock, where the evening was spent in having a jolly good time.

Miss Lynn McNutt and Miss Alpha Brindle will give a musical recital at the McNutt home on Park avenue, Saturday evening. About fifty invitations have been issued.

On Wednesday evening, June 11, Henrietta Dible's birthday was celebrated at her home which was beautifully decorated. After the amusements, refreshments were served.

James Rich, who for a number of years has been connected with the management of the Tropico Feed and Fuel Co., has retired from active service and closed out his interests to his partner, S. A. McNutt, who will continue to conduct the business along the customary lines of good management, good goods and satisfactory prices.

The remains of Oscar A. Bishop, who died at his home, 212 Orange avenue, Glendale, on May 25, was prepared for burial by the Jewel Undertaking Co., June 12 and shipped to his former home at Bishop's Crossing, Canada.

Mr. and Mrs. Norton Marshall of Covina were week-end guests of Mrs. Marshall's parents, Mr. and Mrs. Wm. H. LaFontaine on West Acacia avenue.

Master Frederick Turner and his little sister, Elizabeth, are making quite an extended visit in Chicago with their grandparents. They are the children of Mr. and Mrs. Harry Turner on West Acacia avenue, and they are two dear little favorites. A sister of Mr. Turner accompanies them on their long trip.

H. G. Owens was before Judge Melrose, Saturday morning, for arraignment on a charge of embezzlement preferred by I. H. Oliver. He pleaded guilty and was sentenced to six months.

in the county jail which was later changed to a probationary sentence.

Friday, June 13, Chapter A. H. of P.E.O. held a luncheon at the home of Mrs. John A. Logan of Central avenue. A short business meeting was held and a program of book reviews was read by Mrs. Abby P. Barker. At roll call each member recited a quotation about flowers.

Twelve of the Philatheas girls were the guests of Miss Jennie Boring last Sunday afternoon. Miss Boring is a Tropico girl now engaged in the Coleman house, and took pleasure in showing the Coleman home to her guests.

Mrs. Hattie Hickok, who died June 14 at the home of her son-in-law, E. M. Schipman, 528 Grace Court, was buried from the Pulliam Undertaking Parlor on June 16 at 2:30 p. m. Interment was made at Forest Lawn cemetery. Mrs. Hickok was 57 years old and a native of New York.

Mrs. Edward T. Wilson, a resident of La Crescenta, died on June 11, aged 38 years. She was a native of Missouri and came to California in hope of benefiting her health. Services were held June 14 from the Pulliam Parlor at 2:30 p. m., and interment made at Forest Lawn.

S. M. O. Huddleston, aged 69 years, died at his residence, 119 Geneva avenue, on June 11. Funeral services were held at Pulliam's Parlor at 4 a. m. on June 14, and remains shipped to Monroe, Iowa.

J. Locus, the Tropico tailor, has been under the doctor's care for several days but hopes to get back to business soon. He has recently purchased the Goldberg establishment on San Fernando road and is endeavoring to build up a business worthy of his ability, and is growing in prosperity.

The following transfers are reported from the A. Leighton & Co. office: 185 feet on Acacia, northeast corner of Brand and 63 feet on Acacia, northwest corner of Brand, to Los Angeles and Glendale parties.

The report of the Los Angeles educational department for the year ending May 1, 1913, shows 1907 different students, studying 60 subjects, taught by 50 instructors. These students represent 38 nationalities, 270 occupations and ages ranging from 8 to 70 years.

The Kinsington Club met at the home of Mrs. Herbert Smith of Central avenue, Friday evening. Five hundred was played, and prizes were won by Mr. Earl Clements and Mrs. Chas. H. Phillips. The consolation prize was awarded to Mr. John A. Logan.

Mrs. Minnie H. Cook died at her home in Burbank on June 16. Services were held on June 17 at 2 p. m. from the Pulliam Parlor, and interment at Forest Lawn cemetery. Mrs. Cook was a native of California, was 56 years of age and had been a resident of Burbank for some time.

The fourth open air band concert given by the Glendale band will be held Thursday evening, June 19, on the city hall steps. These concerts are becoming very popular under the direction of T. J. McDermott. The fifth concert will be held July 3.

Died June 10th at his home in Glendale at 1413 Hawthorne street, Geo. W. Brown, aged 70. He leaves a wife, son and one daughter here. The body was shipped to Simco, Canada, his former home, for burial, the Jewel City Undertaking Co. in charge.

R. S. Robinson is wearing that enlarged smile this week and he says there is nothing to the unlucky thirteen coming on Friday. This date, Friday, June 13, 1913, marked the arrival of a 7-pound girl at his home, 339 Brand avenue. Good lusty lungs and mother doing fine is the latest report.

Honoring Mrs. Henry Jeans, of Los Angeles, who is a bride of a couple months, Mrs. Joseph Griffin of West Acacia avenue, entertained with a joyous dinner party on Wednesday. Those enjoying the repast were: Mesdames Henry Jeans, Chas. Chamberlain, Ray Simpson, Miss Leola Simpson, of Los Angeles; Mrs. Carl Overholser and Master Charles Overholser of Redondo; Mrs. John Hobbs, Mrs. Sam Boeing, Master Eugene Boring, Master Chas. Boring of Tropico.

Tropico has again entered the lime light of publicity in a pleasing manner. Miss Litta Belle Hibben, school teacher in the grammar school, has graduated from the law department of the University of Southern California third out of a class of 51. Miss Hibben expects to open a law office about the first of August, and to engage in the active practice of her chosen profession, and her many friends of Tropico and vicinity predict for her much success.

ELEVATED RAILROAD.
OAKLAND, Cal., June 14.—The stretch of elevated railroad west of Chicago is being built in California at the Oakland terminal on the Southern Pacific company. It is to accommodate the numerous suburban electric trains that pass at that point with passengers between the east bay cities and San Francisco.

When in need of Gent's Furnishings don't forget
SCHILLINGS

The Elks!! The Elks!! Don't forget the big times Thursday and Friday evenings. One dose guaranteed to cure the grouches.

The contract for a one-story brick and terra cotta building to be used as its home has been let by the Merchants Bank of Burbank.

Miss Bertha Hopkins, who has been teaching school the past season at Del Sur, is expected home this week. Miss Hopkins' sister, Miss Zetta, journeyed to Del Sur to attend the closing exercises and picnic at that place and will return with Miss Bertha. On their way back they will attend the closing exercises at the Lancaster schools.

T. F. Renfrow of Los Angeles has rented one-half of the room lately vacated by the Schilling Dry Goods Company, and as soon as alterations can be made, will open a first-class sanitary barber shop.

Mrs. Sterling, 135 Tropico avenue, left Sunday for Reno, Nevada, to attend the W. R. C. convention which is to be held at Reno June 9-16.

Mr. Dwight Stephenson of Central avenue, in company with Mr. Sam Lyons of Los Angeles, left Monday for Santa Barbara. From there they will travel by mules into the mountains to a ranch belonging to Mr. Lyons' father, where they will spend two weeks.

FLAG DAY AND THE W. R. C.

It was amusing to note the many surprised expressions of Tropicans, who witnessed the Flag Day parade in Los Angeles, as the delegation from the "City Beautiful" came past. Along the line of march we heard, "Why there's Tropico." "Look! here comes Tropico." Tropico was there sure enough, and well represented by twenty-five members of the G. A. R. and thirty of the W. R. C., in six gaily decorated automobiles and Bill Wibelitz' auto truck. Little Dorothy Erskine dressed daintily in the national colors, acted in the role of mascot and brought forth many bursts of applause from the spectators. On the whole, it was a great success, and was due entirely to the energetic work of the Women's Relief Corps, that organization of less than a hundred loyal women, whose work but too rarely receives public mention. In this connection we might ask how many Tropicans know that the W. R. C. of Tropico is conceded to be the best Corps in Southern California. They don't claim that; but that's the verdict of those that know. One can readily realize it after attending one of their "All-Day" meetings held at the G. A. R. Hall on the fourth Friday in each month. It is a sort of get-together affair in which the W. R. C. furnish a dinner to the G. A. R. and their friends, and it's a good opportunity for the ladies of Tropico who might care to join to get acquainted.

These dinners (known as bean-dinners, costing 15c, and worth 50c) are followed by a program consisting of music, singing of patriotic songs, talks by members of the G. A. R. and visitors, etc., in fact, a general good time. The initiation fee and dues in the W. R. C. are trifling. One of its objects is to bring together in a harmonious, patriotic body, the women who are loyal to the Flag of the United States of America.

The other objects have to do principally with the perpetuating of the spirit that took Sheridan from Winchester to Cedar Creek, and Grant through the Wilderness.

There is work to be done too. Work that only a loyal woman can do and it is done quietly and unostentatiously. Go over and meet them. Meet also the old boys in blue. Listen to their camp-fire stories, and it will make you feel good just to be living under the Stars and Stripes.

GLENDAL HIGH SCHOOL.
Synopsis of Senior Week is as follows:
Sunday, June 22.—High School Auditorium, 7:30 p. m., Baccalaureate Sermon.
Monday and Tuesday, June 23 and 24.—High School Auditorium, 8:00 p. m., Class Play—Admission 25 cents.

SCHILLINGS

Have a very attractive line of men's shirts, collars and neckwear.

Through the efforts of the You and I Club, the ladies have secured Miss Duncan of 307 San Fernando Road and Miss Whitlock of Glendale, both of the Los Angeles Normal School, who will teach this summer in Tropico kindergarten, opening their class June 30, and to continue for two months. Both of the young ladies are experienced with children.

The club women of Riverside propose to make the next annual convention a success from every standpoint. They have already organized for the work of looking after this convention. One of the plans which they have decided on is the issuing of a women's edition of the Riverside Enterprise about June 21. The Enterprise will be edited and managed by the ladies for that issue. An effort will be made to make of that edition a general publication. Some of the topics that will be discussed are: Current National Issues, Features of Club Life, Model Club Houses, Beauty Spots and Resorts of the Southland, Educational Advantages of Southern California, Possibilities of Outdoor Life, Church Life and Churches, Home Life, Sports, etc. The ladies promise an edition worth reading.

A. J. McAdams, aside from his duties as a member of the firm of McAdams Bros., real estate, will have charge of the books at the Tropico Lumber Co. F. L. Lake, who has been acting as secretary and manager for some time has resigned to take up other work.

The peach and apricot crops of the San Fernando Valley, California, are exceptionally fine this year. The fruit is of good quality and abundant. The opening price for peaches is from \$20 to \$30 per ton and about \$35 for apricots. Fruit raisers and canners are seeking help and are promising a long season.

Nouns are known by the adjectives they keep and when the noun home keeps company with such adjectives as drudgery, slovenliness and constant toil there is little pleasure in such company. But when home keeps company with love, system, order, then home becomes a haven of rest.

Among the recent patents granted at Washington was one to Russell Farrar of Glendale, for a machine for grading lemons. Mr. Farrar is but 21 years of age, and resides at 1111 West 7th street, and has been working on his idea for years. He now has perfected a machine that he claims can grade from three to four cars of lemons in one day with the aid of one man, while the present day's order is one and one-half cars with eight men in the same length of time. Farrar will commence at once the building of a model which is sure, if taken hold of, to be a revelation among the lemon packers. Already several promising offers have been made and no doubt in a short time the manufacture of this device will be a certainty. He has associated with him Byron C. Leighton of Los Angeles, who has been a fellow workman on the idea and who will share with him in this good fortune. Men with an inventive mind have brought this grand world of ours up to its present standard and the future scientific research almost appals one when they try to imagine the wonderful possibilities. It is these men who have made us what we are and no small amount of credit is due these two young fellows.

Not yet 19 years old and an impresario is the record of Herbert Henning who resides with his parents at 1021 West Seventh street, Glendale. Herbert was born in Chicago, but moved to California where he has resided for the past five years. For the past year he has furnished the music at the moving picture theater at Glendale, while at the same time improving his leisure hours by hard study as a composer. His musical studies date back to one year and a half with teachers when he was but 13. During these years he has been an apt student, using his own resources as a teacher, and has some very fine compositions that have never been published. Several weeks ago he became associated with Mrs. H. B. Allison, a prominent playwright of Los Angeles, in the work of composing proper music to one of her operas. His work in this line has developed the fact that not only was he a composer but a director as well and at the present time he is busy with the chorus of the play "Lives Worth While" which will be produced at the Temple Auditorium June 19, under the auspices of the Associated Charities and the St. Vincent de Paul Society. This production has been highly advertised in Los Angeles and bids fair to bring out the dramatic critics. The play is worthy of success and under the able directorship of young Henning is sure of it. He is of a retiring nature, but Glendale and surrounding territory should be proud of being the home of so many celebrities.

PROFITABLE LINERS

These little liners are profitable to use and profitable to read. They may serve your purpose. When you want to buy, sell, exchange or rent, use them.

Five cents a line an issue. Six words to a line. Minimum 25 cents.

ANNOUNCEMENT

Mr. W. E. Heald, an old time jeweler of many years' experience, has recently leased a space in the Tropico Pharmacy and solicits a share of the patronage of the people of Tropico and surrounding vicinity for this line of business. A neat and select stock of up to date watches, clocks, jewelry, etc., will be carried, and special attention given to all kinds of repairing pertaining to this class of business, giving to the people of Tropico and vicinity an opportunity to buy their jewelry, etc., or have repairing done at home, promptly, and satisfactorily, guaranteeing first class work at moderate prices. Mr. Heald and family have been residents of Glendale for three years or more, owning a home at 912 Lemita avenue. Any information given, or repairing can be left at his home or, at the residence of D. Heald, 806 W. 9th, who is the father of Mr. W. E. Heald.

ORDINANCE NO. 57.

AN ORDINANCE OF THE CITY OF TROPICO REGULATING THE USE OF PARK AVENUE FROM THE WESTERLY LINE OF GLENDALE AVENUE TO THE WESTERLY BOUNDARY LINE OF THE CITY OF TROPICO.

The Board of Trustees of the City of Tropic do ordain as follows:

SECTION 1. That it shall be unlawful for any person to drive any truck, dray, wagon, oil wagon, truck wagon or other vehicle, regularly employed in carrying goods or merchandise, or any wagon or vehicle carrying coal, sand, rock, lumber, brick or building material, within six months next after the passage of this ordinance, along or upon the hereinafter described sections of the following named avenue, to-wit: Park Avenue from the Western line of Glendale Avenue to the Western boundary line of the City of Tropic, provided, however, that this Ordinance shall not apply to the use of said sections of said street by vehicles carrying goods, merchandise or material to or from premises situated on said sections of said street or adjacent thereto; nor to the use of sprinkling tanks thereon, nor to street intersections on said street above mentioned.

SECTION 2. Any person who shall violate any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding \$30.00 or by imprisonment for not more than thirty days, or by both such fine and imprisonment at the discretion of the court.

SECTION 3. The City Clerk shall certify to the passage and adoption of this Ordinance by a vote of at least two-thirds of all the members of the Board of Trustees of the City of Tropic, and its approval by the President of said Board, and shall thereupon cause it to be published once in the Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in said City of Tropic.

Adopted and approved this 12th day of June, 1913.

Attest:
(Seal) C. A. BANCROFT,
President of the Board of Trustees of the City of Tropic.

S. M. STREET,
City Clerk of the City of Tropic.

By J. L. FISHBACK, Deputy.

STATE OF CALIFORNIA, CITY OF TROPICO—SS.

I, Stuart M. Street, City Clerk of the City of Tropic, do hereby certify that the whole number of members of the Board of Trustees of the City of Tropic is five (5), and that the foregoing Ordinance was duly passed and adopted by a vote of two-thirds of its members, and approved by the President of said Board at a regular meeting thereof held 12th June, 1913, and that it was passed by the following vote, to-wit:

Ayes: Bancroft, Hobbs, Oliver, Webster.

Noes: None.

Absent: Conrad.

S. M. STREET,
City Clerk of the City of Tropic.

By J. L. FISHBACK, Deputy.

ORDINANCE NO. 58.

AN ORDINANCE ESTABLISHING THE GRADE OF CHRISTOPHER STREET FROM THE WEST LINE OF COLUMBUS AVENUE TO THE EASTERN LINE OF SAN FERNANDO ROAD.

The Board of Trustees of the City of Tropic do ordain as follows:

SECTION 1. That the grade of Christopher Street from the West line of Columbus Avenue to the Eastern line of San Fernando Road be and the same is hereby established as follows, to-wit:

At the Northwest corner of Christopher Street and Columbus Avenue the grade shall be 465.85, and at a point on the South line of Christopher Street where said South line is intersected by the Southern prolongation of the West line of Columbus Avenue (said point being also the Northwest corner of Lot A of Normant's Tract as per map recorded in Book 8, page 107, of Maps, Records of Los Angeles County, California), the grade shall be 465.15. At a point on the North line of Christopher Street 500 feet West from the West line of Columbus Avenue the grade shall be 462.25, and at a point on the South line of Christopher Street opposite thereto the grade shall be 461.65. At the Northeast corner of Christopher Street and San Fernando Road the grade shall be 457.29, and at the Southwest corner of Christopher Street and San Fernando Road the grade shall be 457.09.

That between these points the grade shall conform to straight lines joining those points on the same side of the street, excepting that the points of intersection of the grade lines on the North and South lines of Christopher Street 500 feet West from the West line of Columbus Avenue shall be the points of intersection of tangents of vertical curves which shall extend 150 feet East and West from said points of intersection, and that said curves shall supplant the straight lines within said limits.

That grades given are in feet above the City Datum Plane and are on the property lines of the street. The profile of Christopher Street designated and marked "Profile No. 33" on file in the office of the City Engineer of the City of Tropic, which more particularly exhibits the grade herein described, is hereby declared to be the official profile and to exhibit the established grade of said portion of Christopher Street.

SECTION 2. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published once in the Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the said City of Tropic, and thereupon and thereafter the same shall be in full force and effect.

Adopted this 12th day of June, 1913.

(Seal) C. A. BANCROFT,
President of the Board of Trustees of the City of Tropic.

S. M. STREET,
City Clerk of the City of Tropic.

By J. L. FISHBACK, Deputy.

STATE OF CALIFORNIA, CITY OF TROPICO—SS.

I, Stuart M. Street, City Clerk of the City of Tropic, do hereby certify that the foregoing Ordinance was duly adopted by the Board of Trustees of the City of Tropic, State of California, and signed by the President of said Board, at a regular meeting thereof, held on the twelfth day of

June, 1913, by the following vote, to-wit:

Ayes: Bancroft, Hobbs, Oliver, Webster.

Noes: None.

Absent: Conrad.

S. M. STREET,
City Clerk of the City of Tropic.

RESOLUTION NO. 134.

A RESOLUTION OF THE BOARD OF TRUSTEES ORDERING CERTAIN STREET WORK TO BE DONE ON CYPRESS STREET AND MOUNTAIN VIEW AVENUE.

The Board of Trustees of the City of Tropic do resolve as follows:

SECTION 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Tropic, State of California, hereby orders the same to be done according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the Superintendent of Streets of said City, to-wit:

First—That

CYPRESS STREET

from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including all intersections of streets, be graded, oiled and tamped to the official grade in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Second—That a cement curb be constructed along each line of the roadway of said Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Third—That a cement sidewalk five feet in width be constructed along each side line of Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

Fourth—That

MOUNTAIN AVENUE

from the northerly line of Cypress Street to the northerly line of Tract Number 282, as per map recorded in Book 14, pages 118 and 119, of Maps, Records of Los Angeles County, California, including all intersections of streets and alleys, be graded, oiled and tamped to the official grade, in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Fifth—That a cement curb be constructed along each line of the roadway of said Mountain Avenue, from the northerly line of Cypress Street to the northerly line of said tract number 282, including returns at all street and alley intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Sixth—That a cement sidewalk five (5) feet in width be constructed along each side line of said Mountain Avenue, from the northerly line of Cypress Street to the northerly line of Cypress Street to the northerly line of Tract Number 282, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

SECTION 2. The Board of Trustees of the City of Tropic determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent, per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

SECTION 3. The Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the City of Tropic, is hereby designated as the newspaper in which this resolution and notice of said work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

SECTION 4. The City Clerk of the City of Tropic is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent, of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Approved and adopted this 12th day of June, 1913.

(Seal) C. A. BANCROFT,
President of the Board of Trustees of the City of Tropic.

S. M. STREET,
City Clerk of the City of Tropic.

By J. L. FISHBACK, Deputy.

STATE OF CALIFORNIA, CITY OF TROPICO—SS.

I, Stuart M. Street, City Clerk of the City of Tropic, do hereby certify that the foregoing resolution was duly adopted by the Board of Trustees of the City of Tropic, State of California, and signed by the President of said Board, at a regular meeting thereof, held on the 12th day of June, 1913,

and that the same was passed by the following vote, to-wit:

Ayes: Bancroft, Hobbs, Oliver, Webster.

Noes: None.

Absent: Conrad.

S. M. STREET,
City Clerk of the City of Tropic.

By J. L. FISHBACK, Deputy.

June 18-25-21.

NOTICE INVITING STREET WORK PROPOSALS.

Pursuant to Statutes, and to Resolution 134 of the Board of Trustees of the City of Tropic, California, adopted the 12th day of June, 1913, directing this notice, the undersigned invites, and will receive at his office in the City Hall, in the Bank of Tropic Building, located at the junction of Central Avenue and San Fernando Road in the City of Tropic, up to 7:00 o'clock P. M. of Thursday, June 26, 1913, sealed proposals or bids for the following street work to be done according to the plans and specifications posted and on file therefor adopted, or herein mentioned, to-wit:

First—That

CYPRESS STREET

from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including all intersections of streets, be graded, oiled and tamped to the official grade in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Second—That a cement curb be constructed along each line of the roadway of said Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Third—That a cement sidewalk five feet in width be constructed along each side line of Cypress Street, from the easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

Fourth—That

MOUNTAIN AVENUE

from the northerly line of Cypress Street to the northerly line of Tract Number 282, as per map recorded in Book 14, pages 118 and 119, of Maps, Records of Los Angeles County, California, including all intersections of streets and alleys, be graded, oiled and tamped to the official grade, in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications Number 9 for the grading, oiling and tamping of streets in the City of Tropic.

Fifth—That a cement curb be constructed along each line of the roadway of said Mountain Avenue, from the northerly line of Cypress Street to the northerly line of said tract number 282, including returns at all street and alley intersections, in accordance with Specifications Number 2 for the construction of cement curbs in the City of Tropic.

Sixth—That a cement sidewalk five (5) feet in width be constructed along each side line of said Mountain Avenue, from the northerly line of Cypress Street to the northerly line of Cypress Street to the northerly line of Tract Number 282, in accordance with Specifications Number 1 for the construction of cement sidewalks in the City of Tropic.

Bidders must file with each proposal or bid a check payable to the order of the President of the Board of Trustees of the City of Tropic, certified by a responsible Bank, for an amount which shall not be less than ten per cent, of the aggregate of the proposal, or a bond for the said amount, and so payable, signed by the bidder and two sureties who shall justify before any officer competent to administer oaths, for double the said amount, and over and above all statutory exemptions. In bidding, use blanks which will be furnished by the City Clerk upon application.

Tropic, California, June 12, 1913.

S. M. STREET,
City Clerk and ex-Officio Clerk of the Board of Trustees of the City of Tropic, California.
